AIR POLLUTION EPISODE ACTION PLAN

197110AAK

NAME OF INSTALLATION: Diamond International		DATE: April 3, 1974	
LOCATION OF INSTALLATION - STREET: Kankakee River Drive		CITY OR TOWNSHIP: Wilmington	COUNTY: Will
MAILING ADDRESS - STREET OR BOX NO.: P. O. Box 398		CITY: Wilmington	STATE AND ZIP: 60481
PERSON TO BE NOTIFIED:	TITLE:	OFFICE PHONE:	HOME PHONE:
1. James Mayo	Pollution Control	476-7951	[REDACTED]
2. Charles Clark	Plant Manager	476-7951	[REDACTED]
3. Harold Touvelle	Superintendent	476-7951	[REDACTED]

MANUFACTURING PROCESSES: Describe operations or products manufactured.

40 Tons Per Day of Tissue Products.

ACCEPTED APR 3 1974

FUEL COMBUSTION EMISSION SOURCES: Describe combustion equipment, purpose, type of fuel used and rated heat capacity. If capacity over 10 million btu/hr total, specify means whereby four-day supply of low ash, low sulfur fuel is assured unless an emission reduction equivalent to the use of such fuel is planned during alerts.

1. Natural Gas-Fired Steam Boiler to Heat Paper Dryer.
2. Gas-Fired Air Cap to Dry Paper.
3. 35 Gas-Fired Heaters to Heat Building When Required.

REFUSE BURNING OR INCINERATION DEVICES: Indicate amount of refuse burned, type of control device if installed, specify what preparations have been made to store or handle a four-day accumulation of refuse.

NONE

PROCESS EMISSION SOURCES: List all sources of air contaminants not described above:

NONE

EPA Region 5 Records Ctr.

311246

REMARKS:

PERSON TO BE CONTACTED FOR FURTHER INFORMATION: Jim Mayo (Name) 476-7951 (Phone)

SIGNATURE: The undersigned hereby submits its episode action plan in accordance with Rule 410, Chapter 2, Part IV: Illinois Pollution Control Regulations amended August 15, 1972 and certifies that the statements contained herein are true and correct. This plan indicates emission reduction actions which will be taken in the event of an air pollution episode.

NAME OF INSTALLATION:

1971/CAAK

YELLOW ALERT REQUIREMENTS

Open burning prohibited; boiler lancing, soot blowing, and certain incineration authorized only between 12:00 noon and 4:00 p.m. Fuel combustion emission sources rated in excess of 10 million btu/hr shall use fuel with a sulfur content of less than 1.0% (1.5% for fuel oil) or attain an equivalent emissions reduction. Variances and programs of delayed compliance for process emission sources suspended. No actions required of process emission sources meeting Illinois emission standards.

Indicate actions your facility will take to meet requirements:

Plant Meets All Requirements.

Estimated Operations Reduction: 0 %

Estimated Emissions Reduction: 0 %

RED ALERT REQUIREMENTS

Continue all Yellow Alert actions. Operation of manufacturing emission sources, including process steam generators shall be curtailed to the greatest extent possible without causing injury to persons or severe damage to equipment. All incineration is now prohibited.

Indicate actions your facility will take to meet requirements:

When advised of Red Alert, Manufacturing Operations will be Stopped as Soon as Possible Allowing for Equipment Shutdown Limitation. Building Heat will be Maintained at 60 - 65°F by Gas heaters. Under Winter Conditions, the Boiler will be Run at Reduced Capacity to Heat Water Tower Necessary for Fire Protection.

Estimated Total Operations Reduction: 99 %

Estimated Total Emissions Reduction: 90 %

EMERGENCY REQUIREMENTS

Continue Yellow and Red Alert actions. Non-essential use of electricity and motor vehicles prohibited. Buildings heated to 65°F or less. All manufacturing and most industrial, commercial, governmental, educational, and recreational facilities now curtail or cease operation.

Indicate actions your facility will take to meet requirements:

All Manufacturing Operations will have Ceased. Building Heat Requirements will be the Same as Red Alert.

Estimated Total Operations Reduction: %

Estimated Total Emissions Reduction: %

DIAMOND INTERNATIONAL CORPORATION

Certified Copy of Resolution

197110 AAK
on file

RESOLVED, That the Chairman of the Board, the President, any Vice President and the Treasurer, be and they hereby are and each of them hereby is, authorized and empowered in the name of and on behalf of the Corporation to enter into any and all contracts and agreements and to sign, execute and deliver any and all papers, reports, deeds, leases, licenses, easements, rights-of-way, contracts, agreements, documents and instruments of any nature whatsoever, necessary or advisable for the business of the Corporation except (i) options, contracts, deeds and other instruments to effect and carry out any sale of real property owned by this Corporation and instruments granting powers of attorney and (ii) other documents or instruments hereinafter in these resolutions specifically limited to certain officers.

I, George Pascale, Vice President and Secretary of Diamond International Corporation DO HEREBY CERTIFY that the foregoing is a true and complete copy of a resolution duly adopted by the Board of Directors of Diamond International Corporation on October 3, 1968 and that the same is still in full force and effect. I DO HEREBY FURTHER CERTIFY that Robert R. Forrest is a duly elected Vice President of Diamond International Corporation and that the attached Operating Permit Application may be signed by him under the authority granted in the foregoing resolution.

Vice President and Secretary

INTER-OFFICE CORRESPONDENCE

RECEIVED

FEB 19 1974

DATE: January 29, 1974

MEMO TO: Miles A. Zamco, Surveillance Manager, DAPC

FROM: William Zenisek, Surveillance Engineer, DAPC, Region II

ENVIRONMENTAL PROTECTION AGENCY
STATE OF ILLINOIS

SUBJECT: Routine Plant Inspection - January 24, 1974

DIAMOND INTERNATIONAL CORPORATION PLANT

(formerly Cel-Fib Plant)

Wilmington Tissue Division

P. O. Box 398

Wilmington, Illinois 60481

Will County

GeoCode: 197110 AAA (formerly Cel Fibe)

Company Contact: Mr. Charles Clark, Plant Manager

Telephone: 815-476-7951

Permit Status: No air pollution permits
(water pollution permits only)

Products: Paper products

Weather Conditions:

Temp. 30°F

Wind: S-5-10 MPH

Sky: Sunny and bright

The subject facility is located on the northeast edge of Wilmington, Illinois. Mr. Charles Clark, Plant Manager explained the plans for the facility. The plant was not in operation, but plans are to start operation about May 1974.

During the plant visit it was noted that work was proceeding on alteration of the paper processing equipment. The process will start with wood raw material which is pulped to produce a paper product. According to Mr. Clark, the existing paper making equipment will be used in the process, but they are changing some of the other related equipment. The final product will be a tissue paper.

The emissions from this facility are expected to be water vapor from the pulping process and products of combustion, from 2 natural gas fired boilers and several natural gas fired space heaters located in plant for space heat.

Air pollution operating and construction permit requirements were reviewed with Mr. Clark. General information on air pollution permits and permit order forms were requested by Mr. Clark. Mr. Clark explained that they received their permits for their water pollution control equipment.

It is concluded that there will be no apparent air pollution emission problems associated with start-up and operation of this facility. Air pollution permit information and permit order forms have been sent to Mr. Clark. No further surveillance of this facility is recommended at this time.
